## **DETAILED ACTION**

### ***Response to Arguments in Appeal Brief***

1. In view of the Applicant's arguments in the appeal brief filed on April 13, 2006 is persuasive, the previous rejection of the claims is hereby withdrawn. PROSECUTION IS HEREBY REOPENED. An action set forth below.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows for clarification:

In claim 11, line 1, --,-- was inserted after "a driver".

### ***Allowable Subject Matter***

3. Claims 9-11 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Takada (U.S. 4,805,930) discloses an airbag for a driver, wherein the airbag is attached to a steering wheel.

Ochiai (U.S. 6,241,279) also discloses an airbag 21 being attached to a steering wheel, and a pressure sensor 35d is attached to a retainer 19 to detect an internal pressure inside the airbag.

Kobayashi (U.S. 6,811,182) et al also discloses an airbag 4 being attached to a steering wheel, and a pressure sensor 9 for detecting an internal pressure inside the airbag.

None of these above references disclose a pressure sensor mounted on an inner surface of the rear portion of the airbag and being located outside of the steering wheel for detecting an inner pressure of the airbag.

Although, the Zumapano (U.S. 6,513,829) teaches a pressure sensors are attached to the inner surface of the airbag, however it would not be obvious to one having ordinary skill in the art at the time the invention was made to modify either Takada, Ochiai or Kobayashi by using the teaching of Zumapano. The combination would fails to establish a *prima facie* case of obviousness, the examiner has found no suggestion or motivation in either the above reference or in the knowledge generally available to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
